Instructions:

Watch the Instructional Video Tutorial on You Tube at - <https://youtu.be/a5SwEVPJ4>

- 1) **Card Base - Pinwheel Tower**
Cut a piece of Cardstock that measures (H)2" x (W)5". Make vertical score lines along the width at the 1", 2", 3" and 4" marks. Mountain fold all score lines and crease with a Bone Folder.
- 2) **Wings - Die-cut** four 'wings' from Cardstock using the largest, Nested Label 2 Die (or a similar nesting die with a straight, side edge - Hint: Make the height of your tower the same as the length of the side edge of the die).
- 3) Add glue to the end tab of the Pinwheel Tower and stick to the inside to form a rectangular prism.
- 4) **Designer Paper Mats** - Die-cut eight different papers from the collection using the second largest Nested Label 2 Die and glue them to the back and front of each 'wing'.
- 5) Glue the left side of the 'wings' to all four sides of the tower as shown to form the Pinwheel Card Base.
- 6) Make sure the pattern on middle 'wing' at the back of the card is suitable to write a greeting on.

Second 'Page'

First 'Page' - Card Front

Third 'Page' - Card Back

- 7) **Embossed Die-Cuts** - Use the photos as a guide and attach some Embossed Die-Cuts to each section of the card with Stampin' Dimensionals.

Second 'Page'

Fourth 'Page'

- 8) Flatten and place inside the envelope in-between two layers of cardstock to protect the embossed die-cuts.

Fourth 'Page'

First 'Page' - Card Front

Third 'Page' - Card Back

C6 Envelope
