Other: Magnetic Discs with adhesive backing

Tools and Adhesive: Paper Trimmer, Scoring Board, Die Cutting Machine, Scissors, Adhesive Foam Dots, Mini Glue Dots, Art Glitter Glue, Bone Folder

Cutting Dimensions -

You can make 4 Chocolate Holders from one piece of 12x12 cardstock or cut out each one separately from smaller pieces - (H)3" x (W)10-1/2" (x4).

Sweet Valentine Basics Paper - (H)2-7/8" x (W)2-7/8" (4 background paper pieces and 1 more 'patterned' piece of paper - 5 in total for each chocolate holder). (H)2-7/8" x (W)7/16" (2 more 'patterned' pieces) for the spines - 2 in total for each chocolate holder).

Instructions -

1. Score a piece of (L)12" x (W)10-1/2" white cardstock at the 3", 3-1/2", 6-1/2", 7" and 10" marks.
2. Cut out 4 chocolate holders each 3" in height along the 12" side.
3. From left to right, valley fold the 3", 3-1/2" and 6-1/2" score lines. Mountain fold the 7" and 10" score lines and burnish with a Bone Folder. The 1/2" tab at the end is now in the inside-middle of the chocolate holder near the spine.
4. Glue the more patterned piece of paper **to the top-left corner only** of the inside panel as shown. Die-cut a heart window in the centre with the third largest die.
5. Stick one of the magnetic discs underneath the paper before gluing the whole piece in place.

6. Glue another square piece of paper to the back-middle panel behind the heart window.

7. Add glue to the inside spine, fold and attach the ½" tab.

8. Take the other magnetic disc and let it attach itself to the one you've placed underneath the paper.

9. Remove the adhesive backing from the top magnet, fold over the front cover and secure the magnet to the inside-front cover as shown.

10. Glue another square piece of patterned paper to the inside front cover. This section is where you can write a greeting.

11. Glue another square piece of patterned paper to the front cover. Die-cut a cute heart border using the die from the Lots & Lots of Squares 2.0 Metal Cutting Dies. Glue to the front cover as shown.

12. Attach the bunny embossed die-cuts to the cover with Adhesive Foam Dots.
13. Die-cut a piece of white cardstock with the appropriately sized Sentiment Strips Metal Cutting Die and stamp "WITH LOVE" four times across its length.
14. Die-cut a sentiment strip of the 'woodgrain' pattern in the pack (next size up for the sentiment mats).
15. Cut apart the sentiments and mat each one onto the woodgrain piece.
16. Cut apart and attach a sentiment to the front cover with Adhesive Foam Dots.
17. Glue the two patterned pieces to the spines.
18. Attach a heart shaped chocolate to the inside of the window with some Mini Glue Dots. Glue a small embossed heart die-cut to the window as shown.

19. Repeat steps 1-17 with the remaining three chocolate holders using different papers and embossed die-cuts. Examples are shown in the following pics.

Alternative Ribbon Closure -

Cut a piece of ribbon approximately 20" in length.

Add some Tear & Tape Adhesive along the back, spine and front of each holder as shown.

Attach the ribbon to the adhesive so it will tie together at the side of the holder.

Tie a bow at the side of each chocolate holder and trim off any excess ribbon.
